Timing of Filing of Annual Report on Form 20-F for the Year Ended December 31, 2019

JMU Limited (the “Company”) is furnishing this current report on Form 6-K to indicate its reliance on the order issued by the Securities and Exchange Commission (“SEC”) on March 25, 2020 providing conditional relief to public companies that are unable to meet a filing deadline as a result of the novel coronavirus (“COVID-19”) outbreak (Release No. 34-88465) (the “Order”) in connection with an extension of 45 days to file its annual report on Form 20-F for the year ended December 31, 2019 (the “Annual Report”) due to circumstances related to COVID-19.

The Company is headquartered in Beijing, China, which has been seriously impacted by the COVID-19 epidemic. The severity of the current COVID-19 pandemic resulted in lock-downs, travel restrictions and quarantines imposed by the PRC government. The Company closed its corporate offices in China from January through March 2020 and requested that all employees work remotely. Restrictions on access to the Company’s facilities and quarantines have impeded the Company’s finance team from completing the financial statements and related materials necessary for audit. These, in turn, have hampered the Company’s ability to file the Annual Report by the original filing deadline of April 30, 2020. The Company expects to file the Annual Report with the SEC no later than June 14, 2020 (45 days after the original due date).

Risk Factor Related to COVID-19

In light of the COVID-19 pandemic, the Company will be including the following risk factor in its Annual Report:

The COVID-19 outbreak could significantly disrupt our operations and adversely affect our results of operations.

Since December 2019, China has experienced an outbreak of COVID-19, a disease caused by a novel and highly contagious form of coronavirus. The severity of the outbreak in certain provinces resulted in travel restrictions, quarantine and social distancing measures imposed by the local governments across China and materially affected general commercial activities in China. The COVID-19 outbreak made it difficult to carry out our marketing activities to promote our products and services to potential customers and gave rise to sudden significant changes in regional and global economic conditions that could interfere with purchases of products or services. We currently are unable to predict the duration and severity of the spread of the COVID-19, and responses thereto, and the impact on our business, results of operations, financial condition, cash flows and liquidity, as these depend on rapidly evolving developments, which are highly uncertain and will be a function of factors beyond our control, such as the continued spread or recurrence of contagion, the implementation of effective preventative and containment measures, the development of effective medical solutions, financial and other market reactions to the foregoing, and reactions and responses of communities and societies.

Any similar future outbreak of a contagious disease, other adverse public health developments in China and around the world, or the measures taken by the governments of China or other countries in response to a future outbreak of a contagious disease may restrict economic activities in affected regions, resulting in reduced business volume, temporary closure of our facilities and offices or otherwise disrupt our business operations and adversely affect our results of operations.
